Made in the USA.

CLEARSPAN KEEPS YOUR VALUABLE AGGREGATE MATERIALS **SAFE AND DRY YEAR-ROUND**

ClearSpan Fabric Structures is the industry leader when it comes to aggregate and bulk storage solutions. Manufactured with the highest-quality, triple-galvanized structural steel for the frame and high-density polyethylene (HDPE) for the fabric cover, ClearSpan offers economical structures ideal for any of your needs.

The ClearSpan Aggregate Advantage:

Versatile foundation options - Helical Anchor foundations can be installed anywhere and require minimal-to-no excavation.

Low cost per square foot.

Lower energy costs with natural daytime lighting.

Buildings up to 300' wide and available at any length.

Turnkey or design-build solutions.

Spacious interiors - Without support posts for the maximum amount of usable space and a safe working environment.

Industry-leading warranty - 50 years on the frame and 20 years on the fabric.

Easy to expand, disassemble and relocate.

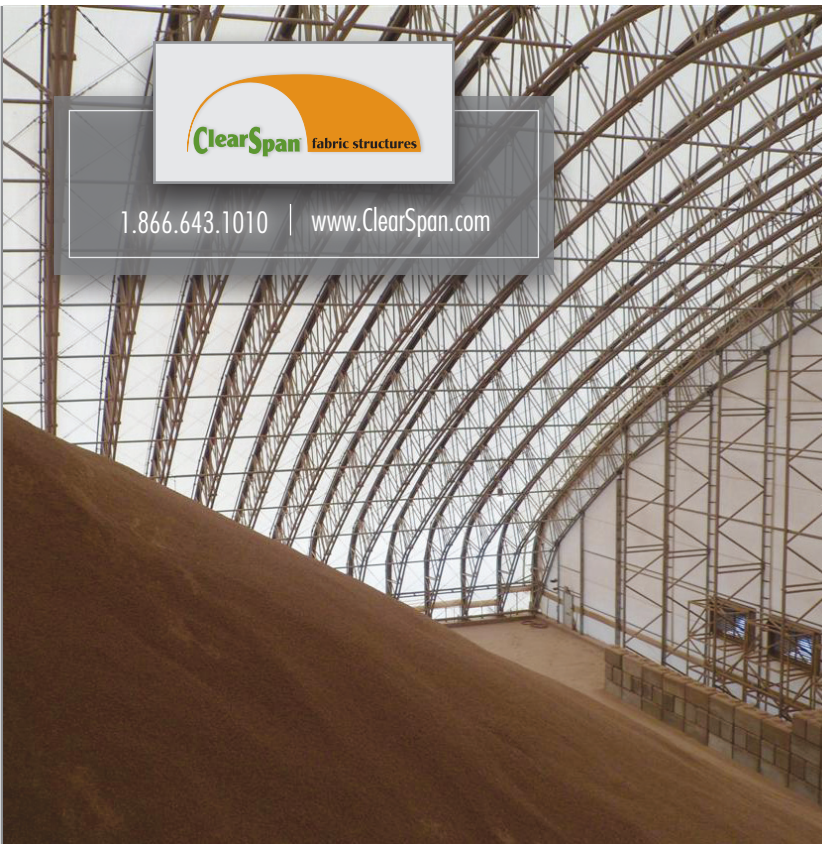

Quick to manufacture and install.

CLEARSPAN

CUSTOMER TESTIMONIALS

"We got the most space we could possibly get. We are extremely happy with all three buildings, and we're talking about purchasing a few more for our quarry operations."

- Robbie Freels, APAC, Columbia, Mo.

Since 1979, ClearSpan has offered **cost-effective, versatile and energy-efficient building solutions**. We provide in-house design, manufacturing and construction, and pride ourselves on offering **superior customer service**. Our experienced truss arch specialists are highly trained to help you determine the best structure and setup for your needs. With stock, turnkey and design-build solutions, there is a ClearSpan structure for everybody.

"The building has really cut down on the labor involved with making our product."

- Jim Dalton, CTS Cement Manufacturing Corp., Logansport, Ind.

Dyersville, Iowa Manufacturing Facility

Hybrid Style Buildings

Metal Buildings

"The buildings are well made, and we've had no issues. Also very easy to disassemble and reassemble. We will be ordering more."

- Keith Jones, Small Mine Development, Butte, Mont. and Carlin, Nev.

FABRIC COVER STRENGTH TEST

Lifting a 2008 Dodge quad using our 12.5 oz cover material and structural steel frame.
