Made in the USA.

CLEARSPAN IS YOUR PRIMARY SOLUTION FOR STORAGE AND MAINTENANCE SHOP NEEDS

ClearSpan Fabric Structures is the industry leader when it comes to all your building and storage solutions. Manufactured with the highest-quality, triple-galvanized structural steel tubing for the frame and high-density polyethylene (HDPE) for the fabric cover, ClearSpan offers economical structures ideal for any of your needs.

The ClearSpan Mining & Exploration Advantage:

- Versatile foundation options - Helical Anchor foundations can be installed anywhere and require minimal-to-no excavation.
- Low cost per square foot.
- Lower energy costs with natural daytime lighting.
- Workshop, equipment or commodity storage buildings.
- Turnkey or design-build solutions.

- Spacious interiors - Without support posts for the maximum amount of usable space and a safe working environment.
- Stock buildings on hand for rapid delivery.
- Easy to expand, disassemble and relocate.
- Quick to manufacture and install.
- Insulate for harsh weather conditions.

CUSTOMER TESTIMONIALS

"They've been wonderful during winter and summer. The height has allowed us to install mezzanine decks that have greatly increased usable space."

- Keith Jones, Small Mine Development,
Butte, Mont. and Carlin, Nev.

"We love how it lets in natural light during the day, offering good visibility and safety for our employees. Plus, the building requires virtually no maintenance."

- Dan Orth, Thule, Inc.,
Seymour, Conn.

"Due to the fabric cover, it is very bright in the building during our normal operating hours. We are also able to store other materials in the structure between projects, because of the wide space it provides."

- Adam Kuhlman, Kuhlman Corporation,
Toledo, Ohio

FABRIC COVER STRENGTH TEST

Lifting a 2008 Dodge quad using our 12.5 oz cover material and structural steel frame.
