CLEARSPAN CREATES IDEAL, AMERICAN-MADE BUILDING SOLUTIONS FOR ANY **MILITARY APPLICATION**

ClearSpan's versatile and dependable structures are the perfect option for military use. Structures can be permanent or easily transported, and they have been used for vehicle and equipment storage, housing, mess halls, hangars, command centers and more. ClearSpan provides a one-stop shopping experience, making it easy to get an ideal building solution, and with custom, stock and turnkey building options, ClearSpan can meet any military requirement.

The ClearSpan Military Advantage:

Versatile fabric, metal and hybrid styles.

Build up to 300' wide and at any length - Ideal for any application.
Low cost per square foot. No internal support posts. Maximum space.

Climate-sensitive covers - 20 degrees cooler in summer,
20 degrees warmer in winter.

Energy-efficient designs - Bright natural light. Ideal for use in the field and reducing utilities. Easy to maintain.

Durable construction and industry-leading warranties - 50 years on steel frames, 25 years on corrugated metal and 20 years on fabric covers.

Maximum ventilation, dry environments - Great for work or storage. Economically and aesthetically pleasing.

Multiple foundation options - Save time and money with our Helical Anchor System.

CLEARSPAN

CUSTOMER TESTIMONIALS

"Our initial investment was much lower than a wood or metal structure. We were able to get this building up and fast, and it is easy to maintain. We are very happy with our fabric structure. You get a lot of bang for your buck with a ClearSpan building."

- Steve Wegener, Kuhlman Corporation, Toledo, Ohio

"The guys like the structure, and ClearSpan is customer friendly. It only took the ClearSpan construction crew a week to put it up and get it anchored well. We are considering purchasing another ClearSpan structure for our ladder truck."

- Gerry Strider, Bailey's Crossroads Volunteer Fire Dept., Falls Church, Va.

"The natural lighting is perfect, even on cloudy days. The inside temperature in the summer is a minimum of 10 degrees cooler, which is good when you have the 100 degree summer days we experience here."

- Glenn Garrison, Lauren Engineers & Constructors, Inc., Abilene, Texas

Since 1979, ClearSpan has offered **cost-effective, versatile and energy-efficient building solutions**. We provide in-house design, manufacturing and construction, and pride ourselves on offering **superior customer service**. Our experienced truss arch specialists are highly trained to help you determine the best structure and setup for your needs. With stock, turnkey and design-build solutions, there is a ClearSpan structure for everybody.
