Made in the USA.

CLEARSPAN PAVILION BUILDING CREATES A COVERED, VERSATILE ENVIRONMENT THAT'S ALWAYS WELL VENTILATED

The ClearSpan Pavilion Building features no end walls or sidewalls, providing an adaptable structure that can be used for just about anything. If walls become necessary, they can be easily installed to create an enclosed structure that is ideal for any application.

The ClearSpan Pavilion Building Advantage:

Maximum ventilation - Reduced moisture.

Energy-efficient design - Natural lighting provides a well-lit atmosphere.

No internal support posts - Maximum amount of usable space.

Durable construction - Built with USA-made, triple-galvanized structural steel and a 12.5 oz., 24 mil rip-stop polyethylene fabric cover.

13'H eaves for extra coverage.

Low cost per square foot - Economically and aesthetically pleasing.

Numerous foundation options - Helical Anchor foundation reduces excavation costs.

Industry-leading warranties - 50 years on the frame and 20 years on the fabric cover.

CLEARSPAN

CUSTOMER TESTIMONIALS

"We love the natural light the fabric cover allows into the building. We won't need to use electricity often, which will save us a lot of money. All in all, it is perfect for what we needed."

- Steve Messina, King William, Va.

"We use the buildings for large group parties that would not have fit inside our main building. ClearSpan offers excellent customer service and the buildings are working out great!"

- Jim Schunk, Gary, Ind.

"I have had good success training animals outside in a corral, but a building would let me work them year round. My ClearSpan building is stronger than the one that I was interested in from the other company. It's a better building."

- Anne Fontanella, Burnet, Texas

Since 1979, ClearSpan has offered **cost-effective, versatile and energy-efficient building solutions**. We provide in-house design, manufacturing and construction, and pride ourselves on offering **superior customer service**. Our experienced truss arch specialists are highly trained to help you determine the best structure and setup for your needs. With stock, turnkey and design-build solutions, there is a ClearSpan fabric structure for everybody.
