

ClearSpan **Commodity hd buildings** feature an open side that simplifies bulk and aggregate storage

The ClearSpan Commodity HD Building features an open side that makes accessing materials with equipment and machinery easier than ever. This structure streamlines work by allowing access to multiple storage bays, and there is plenty of clearance for machinery of any size.

The ClearSpan Commodity HD Building Advantage

Ideal for municipalities, bulk supply, construction and more.

Durable construction that withstands corrosive environments - Built from USA-made, triple-galvanized steel.

Covers built for strength - 12.5 oz., 24 mil rip-stop polyethylene that is UV resistant and comes in choice of four colors.

Features an open front wall and adjustable back wall curtain that protects livestock.

Optional panels available to enclose the structure - Custom accessories, side and end panels ensure the ideal building solution.

Industry-leading warranties - 50 years on the frame and 25 years on the metal cover.
