

ClearSpan **Commodity HD Buildings** feature an open side that simplifies bulk and aggregate storage

The ClearSpan Commodity HD Building is designed with an open side that makes accessing materials with equipment and machinery easier than ever. This structure streamlines work by allowing for multiple storage bays, and there is plenty of clearance to fit larger machinery.

The ClearSpan Commodity HD Building Advantage

Ideal for municipalities, bulk supply, construction and more.

Durable construction that withstands corrosive environments - Built from triple-galvanized steel.

Covers built for strength - 12.5 oz., 24 mil rip-stop polyethylene that is UV resistant and comes in choice of four colors.

Features an open front wall.

Optional panels available to enclose the structure - Custom accessories, side and end panels ensure the ideal building solution.

Industry-leading warranties - 50 years on the frame and 20 years on the fabric cover.
