

PAVILION

ClearSpan Pavilion Buildings create a covered, versatile environment that's always ventilated

The ClearSpan Pavilion Building features no end walls or sidewalls, providing an adaptable structure that can be used for just about anything. If walls become necessary, they can be easily installed to create an enclosed structure that is ideal for any application.

The ClearSpan Pavilion Advantage

Maximum ventilation - Reduced moisture.

Energy-efficient design - Natural lighting provides a well-lit atmosphere.

No internal support posts - Maximum amount of usable space.

Durable construction - ClearSpan's truss and beam frames ensure the utmost structural integrity.

Multiple cladding solutions - Choose between fabric or metal to create the ideal environment.

Numerous foundation options - Helical Anchor foundation reduces excavation costs.

Industry-leading warranties - 50 years on the frame and up to 30 years on the cladding.

In-house services - Streamline your next building project with financing, engineering and installation.
